

NORMA DPF Clamp Kits

The diesel particulate filter market has seen steady growth because the technology has proven to be effective in addressing concerns around pollution and emissions.

That's why NORMA continues to launch innovative products to help our customers in the heavy duty market. Our DPF Clamp Kit is designed to make cleaning easier by including both the filter clamps and the gaskets needed during regular maintenance intervals. Each kit contains the OEM requirement of clamps and gaskets and NORMA clamps are made from the highest quality steel to reduce the possibility of clamp failure.

The Choice of Original Equipment Manufacturers (OEMs)

- Manufactured to the highest tolerances and OEM specs to increase the effectiveness of a vehicle's filtration system
- Performance engineered stainless steel construction for long-term durability & reliability

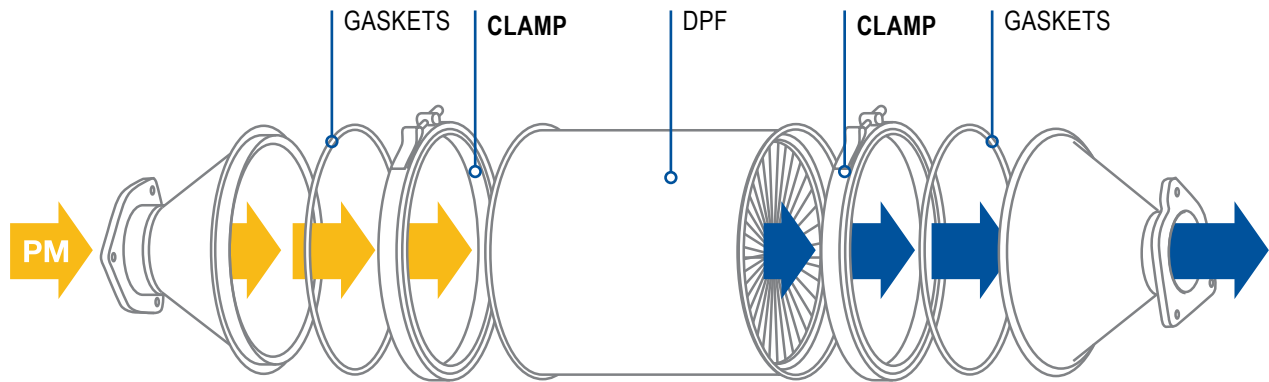

Domestic Service, Support and Availability

- Our North American facilities and distribution center gets you the right part, on-time
- No waiting for overseas shipments

NORMA DPF Clamp Kits

Engineered to meet the highest emissions standards for today's diesels, our OE-quality DPF Clamp Kit provides the most reliable performance for particulate filter canisters.

08068001365 Volvo/Mack Kit
