

## BREEZE 3-Piece Clamp

The BREEZE 3-Piece worm drive hose clamp is a cost-effective clamping solution that is more reliable and versatile than offshore options. It was designed with tempered 301 stainless steel on the band for excellent corrosion resistance, high ductility, high strength and a specially designed 200 series stainless steel screw for higher performance, a tighter seal, enhanced free torque and better radial sealing pressure than competitive products.

Designed equivalent to OE, the clamp also meets SAE 1670 design standards.

### Benefits:

- | Reduces the number of SKUs needed
- | Improved inventory turns
- | More streamlined supply chain

### Features:

- | Cost effective clamping solution
- | Specially designed screw
- | Better radial sealing pressure

### Applications:

- | Passenger vehicle water lines
- | Depressurized and pressurized fuel lines
- | Ventilation systems
- | Irrigation applications
- | Machine building applications
- | Household appliance lines

**USA**

# BREEZE 3-Piece Clamp

**Reliable and Versatile.** The BREEZE 3-Piece worm drive hose clamp features a ½" (12mm) band with arcial perforations for smoother engagement and added strength. With 22 skus ranging from 7/16" to 7" in diameter, this all-new clamp is made in the USA from globally sourced components.
